WFLD-ED 2017 THESSALONIKI GREECE BRINGING LASER TO SUNLIGHT

MAKEDONIA PALACE

Dear Colleagues,

The **World Federation for Laser Dentistry** coming soon to its 40th anniversary since its establishment in 1988 is still serving the initial goal. To exchange, advance and spread the scientific knowledge that is related to laser dentistry. All divisions worldwide are contributing and working on the same wavelength. We as the **European Division**, try to support our organisation with collaborations, good communication between our members and successful biannual meetings.

Our first congress in Nice back in 2007 started this fruitful series, followed by Istanbul, Rome, Brussels and Bucharest. Every step of the way was a delightful meeting of familiar faces and friends, which accompanied the extremely interesting scientific programs.

It is with great honour that i will contribute to the continuation of these meetings with our **6th Laser Dentistry Congress of the WFLD-ED**. We will host it in **Thessaloniki Greece**, with the great support of the University i serve (**Aristotle University of Thessaloniki**) and the Greek Society for Laser Dentistry (**GSLD**). We have planned an exciting scientific program on laser dentistry and in modern aesthetic operative dentistry in parallel.

The location of our venue, **Macedonia Palace Hotel** is exceptional in the heart of this colourful and lively city and we believe we can make this a memorable event. We also have tried hard, during this difficult financial times in Europe, to keep the registration costs as low as possible in comparison to past events.

We cordially welcome you in **Thessaloniki on 22 and 23 September 2017**, hoping to meet you all once again, strengthening also our European Division. So, let' s meet in sunny Thessaloniki. **Let's bring laser light to sunlight.**

Dr. Dimitris Strakas, DDS, MSc, PhD

Congress President

President of the Greek Society for Laser Dentistry

Chairman WFLD-ED

22 & 23 September 2017

WFLD-ED 2017 THESSALONIKI GREECE BRINGING LASER TO SUNLIGHT

MAKEDONIA PALACE

Dear colleagues,

It gives me great honour and pleasure to invite you to the forthcoming **WFLD-ED 2017 in 22nd and 23rd of September 2017** in the city of **Thessaloniki** in Greece. The motto we picked up for the Congress is “**Bringing Laser to Sunlight**” as **Hellas** which is the historical name of Greece since ancient times means “**the land of light**”. Moreover **Thessaloniki** and its region **Macedonia**, with history that goes back thousands of years is the birthplace of two of the brightest historical persons, **King Alexander the Great** and his teacher the founder of philosophy **Aristotelis**. Of course modern Thessaloniki is also a metropolis that provides visitors with all different opportunities for leisure and good time.

Most significantly of course, our efforts concentrate on bringing on the latest developments in the field of **Dental Lasers** presented by international authorities, both academics and clinical practitioners giving to the participants a comprehensive thorough view of where we are standing and where developments are leading us. An innovation to the congress is that there will be also a parallel **restorative-aesthetic** scientific program related to the use of lasers as well.

Dear colleagues,

We are confident that **WFLD-ED 2017 in 22nd and 23rd of September 2017** will meet the highest expectations and standards and I would like once again to invite you to be part of a great scientific event done under the bright greek sun, we are expecting you all.....

Dr Kosmas Tolidis, DDS, MSc, PhD

Associate Professor, Dept of Operative Dentistry

Administrator of the Laser Dental Clinic – Thessaloniki Dental School
